*Note.*—Members are those who constitute the incorporated Society of Apothecaries; Licentiates, those who have obtained their licence to practise as Apothecaries.

*Regulations to be observed by Students intending to Qualify themselves to Practise as Apothecaries in England and Wales.* (Dated 1848.)

Candidates will be required to produce testimonials—

1. Of having served an apprenticeship of not less than five years to an apothecary, legally qualified to practise as an apothecary, either by having been in practice prior to or on the 1st of August, 1815, or by having received a certificate of his qualification from the Court of Examiners, or of an apprenticeship for not less than five years to surgeons practising as apothecaries in Ireland and Scotland.
2. Of having attained the full age of twenty-one years: As evidence of age, a copy of the baptismal register will be required in every case where it can possibly be obtained.
3. Of good moral conduct: A testimony of moral character from the gentleman to whom the candidate has been an apprentice will always be more satisfactory than from any other person.
4. And of having pursued a course of medical study in conformity with the regulations of the court.

### COURSE OF STUDY.

Every candidate whose attendance on lectures shall have commenced on or after the 1st of October, 1849, must attend the following lectures and medical practice during not less than three winter and two summer sessions—each winter session to consist of not less than six months, and to commence not sooner than the 1st, nor later than the 15th of October; and each summer session to extend from the 1st of May to the 31st of July.

**FIRST YEAR.**—*Winter Session*: Chemistry; Anatomy and Physiology; Anatomical Demonstrations.—*Summer Session*: Materia Medica and Therapeutics; Botany and Vegetable Physiology; Midwifery, and Diseases of Women and Children.

**SECOND YEAR.**—*Winter Session*: Anatomy and Physiology; Anatomical Demonstrations; Dissections; Principles and

Practice of Medicine; Medical Practice.\*—*Summer Session*: Medical Practice;\* Midwifery and Diseases of Women and Children; Forensic Medicine; Practical Chemistry;† Morbid Anatomy; Clinical Medicine.

**THIRD YEAR.**—*Winter Session*: Dissections; Principles and Practice of Medicine; Medical Practice;\* Morbid Anatomy and Clinical Medicine.

Practical Midwifery at any time after the conclusion of the first course of midwifery lectures.

The above course of study may be extended over a longer period than three winter and two summer sessions, provided the lectures and medical practice are attended in the order prescribed.

The Court particularly request the attention of students to the increasing importance of Organic Chemistry and Structural and Physiological Botany.

Every examination of an hour's duration will be deemed equivalent to a lecture.‡

Students must also produce testimonials of attendance on a course of clinical lectures; of instruction in morbid anatomy; and of having dissected the whole of the human body once at least.§

Those gentlemen whose attendance on lectures commenced before the 1st of October, 1849, will be allowed to complete their studies in conformity with the previous regulations of the court.

The names of the lecturers recognised by the court may be known on application to the secretary, at the hall of the society.

The certificates of teachers recognised by the constituted medical authorities in Dublin, Edinburgh, Glasgow, and Aberdeen, as also those of the medical professors in foreign universities, are received by the court.

No hospital will be recognised by the court, unless it contain at least 100 beds, and it be under the care of two or more physicians, members of the Royal College of Physicians of London, or graduated Doctors of Medicine of a British university, who give a regular course of clinical lectures and instruction in morbid anatomy; also, unless the apothecary be legally qualified, either by having been in practice prior to the 1st of August, 1815, or by having received a certificate of qualification from this court.

No dispensary will be recognised by the court, unless it be situated in some town where there is a recognised medical school, and be under the care of at least two physicians and an apothecary legally qualified.

No medical practice will be available, unless it be attended in conformity with the course of study prescribed for pupils.

### REGISTRATION OF TESTIMONIALS.

All testimonials must be given on a printed schedule, with which students will be supplied at the time of their first registration:—

In London, at the Hall. In the provincial towns, from the gentlemen who keep the registers of the medical schools.

All students, in London, are required *personally* to register the several classes for which they have taken tickets; and those only will be considered as complying with the regulations of the court whose names and classes in the register correspond with their schedules.

Tickets of admission to lectures and medical practice must be registered in the months of October and May; but no ticket will be registered, unless it be dated within *seven* days of the commencement of the course; and certificates of attendance must be registered in the months of April and August.

The court also requires students at the provincial medical schools to register their names in their own handwriting, with the register of each respective school, within the first twenty-one days of October, and first fourteen days of May; and to register their certificates of having duly attended lectures on medical practice within fourteen days of the completion of such attendance.

\* Medical Practice must be attended during the full term of eighteen months—twelve months at a recognised hospital, and six months either at a recognised hospital or dispensary.

† By Practical Chemistry is intended a *specific* course of instruction in the laboratory, with an opportunity of personal manipulation in the ordinary processes of chemistry, and of acquiring a knowledge of the various reagents for poisons.

‡ The court particularly request attention to this clause.

§ In place of the Second Course of Lectures on the Theory and Practice of Medicine, the Court will admit a certificate of attendance on a course of Clinical Lectures, delivered in a recognised hospital by a distinct Professor, consisting of not less than seventy-five lectures, attended by the student after the first systematic course upon the Theory and Practice of Medicine.

## PRELIMINARY EXAMINATION IN CLASSICS AND MATHEMATICS.

Three times in each year an examination will take place in Classics and Mathematics for articulated students who have not yet completed the first winter session of their curriculum; and students who pass this examination will not be subject to any subsequent examination in Latin, except the Pharmacopœia Londinensis and Prescriptions. The subjects of examination, and the dates, will be announced in the medical journals at least three months before each examination.

## PRELIMINARY LATIN EXAMINATION.

On the first Saturday in the months of November, December, February, March, May, June, and July, those students who have completed two winter sessions of their medical studies may be admitted to an examination in Celsus and Gregory, provided there be twenty names on the list. Candidates will be required to enter their names in a book kept at the beadle's office, on or before the preceding Monday, and to attend at half-past three o'clock P.M., on the day of examination.

Those gentlemen who fail to pass this examination satisfactorily will not be re-admitted until they appear for their general examination.

## GENERAL EXAMINATION.

Every person intending to offer himself for examination must give notice in writing to the clerk of the Society, on or before the Monday previously to the day of examination, and must at the same time deposit all the required testimonials at the office of the beadle, where attendance is given every day, except Sunday, from ten until four o'clock.

The examination of the candidate for a certificate of a qualification to practise as an apothecary will be as follows:—

In translating portions of the first four books of Celsus de Medicinâ, and of the first twenty-three chapters of Gregory's *Conspectus Medicinæ Theoreticæ*:

In Physicians' Prescriptions, and the *Pharmacopœia Londinensis*:

In Chemistry: In Practical Chemistry:

In *Materia Medica* and Therapeutics:

In Botany: In Anatomy: In Physiology:

In the Principles and Practice of Medicine, including Midwifery and the Diseases of Children.

The examination of the candidate for a certificate of qualification to act as assistant to an apothecary, in compounding and dispensing medicines, will be as follows:—

In translating Physicians' Prescriptions and the *Pharmacopœia Londinensis*:

In Pharmacy and *Materia Medica*.

By the 22nd section of the Act of Parliament, no rejected candidate for a certificate to practise as an apothecary can be re-examined until the expiration of six months from his former examination; and no rejected candidate as an assistant until the expiration of three months.

The court meet in the Hall every Thursday, where candidates are required to attend at a quarter before four o'clock.

Sums to be paid for certificates:—

For London, and within ten miles thereof, ten guineas.

For all other parts of England and Wales, six guineas.

Persons having paid the latter sum become entitled to practise in London, and within ten miles thereof, by paying four guineas in addition.

For an assistant's certificate, two guineas.

For information relative to these regulations, students are referred to the beadle, at Apothecaries' Hall, every day, (Sunday excepted,) between the hours of ten and four o'clock.
